

ONLINE HUSTLES SERIES

02 — Affiliate Marketing

Nigeria-first practical guide · 2026 · Expanded edition

■0 · First commission in 7–21 days · StakeCut · Selar · Expertnaire

Expanded with sample WhatsApp scripts, product selection rules, daily promotion system, and clear scaling path from first sale to residual income.

1. What It Is

You share a unique link. When someone buys through that link, you earn a commission. You never create the product, hold stock, or handle support. In Nigeria the three core platforms that pay reliably in naira are StakeCut, Selar and Expertnaire. All are free to join.

2. Earnings Reality 2026

Stage	Time	Monthly	Key activity
First sales	7–21 days	■5k–■40k	WhatsApp Status + 1–2 offers
Consistent	1–3 months	■50k–■200k	Daily content + list building
Established	3–9 months	■200k–■800k+	Higher-ticket + own product

3. Exact Setup (■0)

1. Confirm Nigerian bank account is active.
2. Join StakeCut (stakecut.com) — free, weekly naira payout, best beginner start.
3. Join Selar Affiliates — free, strong for Nigerian digital products.
4. (Optional early) Join Expertnaire — higher commissions once you have some traffic.
5. Optional later: Jumia/Konga (physical), Systeme.io (recurring dollar).

Official StakeCut YouTube channel ID: UC4yq_hyfv0uRVBW54_C0_Qg — use it for platform training and feature updates.

4. How to Choose Products

- Start with products you understand and would buy yourself.
- Online income, digital skills (Canva, writing, SMM), exam/skill courses convert well in Nigeria.
- Higher-ticket courses with strong sales pages usually beat random ■1,000 items.
- Check recent sales proof or reviews before promoting heavily.

5. Sample WhatsApp Status / Broadcast Scripts

Day 1 — Problem

“Plenty people dey hustle online but still no see consistent money. The problem no be say the money no dey — the problem na say dem no get system. I go show you one simple system wey plenty Nigerians dey use. Watch this status tomorrow.”

Day 2 — Value / Story

“Yesterday I talk about system. One of the cleanest systems be affiliate marketing — you promote product wey already dey sell, you collect commission. No stock, no delivery stress. I dey use platforms wey pay straight to Nigerian bank. I go drop the exact starting point tomorrow.”

Day 3 — Soft CTA

“If you wan start with zero capital and see how the commission system work, drop ‘INFO’ or click the link for the platform I personally start with. No registration fee. You fit begin this week.” + “ [your StakeCut or Selar link]”

After someone replies, move them to a Broadcast List or direct chat. Answer questions honestly. Never guarantee specific income.

6. Daily Promotion System

- Morning: One value Status or short video tip related to the product niche.
- Afternoon: Reply to every serious comment or DM.
- Evening: One more soft promotional Status or group value post (where allowed).
- Weekly: Review which messages and products produced clicks/sales. Double down on winners.

7. Mistakes That Kill Results

- Posting only the raw link with no story.
- Promoting 8 different products at once.
- Quitting after 5–7 days with zero sales.
- Paying any ‘activation’ or ‘registration’ fee.
- Spamming groups and destroying reputation.

8. Scaling Path

Week 1–2: StakeCut + Selar, 1–2 offers, WhatsApp Status sequence, first commission.

Week 3–6: Add short-form video (TikTok/Reels). Build Broadcast List / small Telegram.

Month 2–4: Higher-ticket Expertnaire offers + start collecting contacts systematically.

Month 4+: Create your own simple digital product and promote it alongside affiliates (you keep 100% of your product sales).

9. Action Checklist

- Bank account ready
- StakeCut account created, 1–2 offers chosen
- Selar affiliate account created
- 3-day WhatsApp Status sequence written and scheduled
- Broadcast List created for interested people
- Simple tracker for clicks and sales started

Channels (including official StakeCut) and blogs are in the resource JSON. FinReels Online Hustle package.
