

ONLINE HUSTLES SERIES

04 — Canva Graphic Design Freelancing

Nigeria-first practical guide · 2026

■0 · Free Canva · First clients in 1–2 weeks

How to start earning with Canva from Nigeria: portfolio, pricing, finding local and online clients, and turning simple designs into consistent income.

1. What This Hustle Is

You design visual content using Canva (free plan is enough to start): Instagram/Facebook posts, flyers, posters, logos, business cards, pitch decks, YouTube thumbnails, WhatsApp Status graphics, menus, and brand kits. Every Nigerian business that posts online or prints materials needs this. No design degree required — taste, speed, and clear communication matter more.

2. Realistic Earnings 2026

Level	Per design / package	Monthly potential	Notes
Beginner	■2k–■8k / design	■40k–■120k	Single posts & flyers
Active	■8k–■25k / package	■150k–■350k	Weekly content packs
Retainer / brand	■40k–■150k / month	■300k–■800k+	Ongoing clients

3. Exact Setup (■0)

1. Create free Canva account at canva.com (phone or laptop).
2. Spend 2–3 days practising: copy 10 good Nigerian business designs and recreate them.
3. Create a portfolio of 8–12 original samples (flyers, posts, a simple logo, a menu, a status pack).
4. Host the portfolio: Google Drive folder, Canva view links, or free Notion/Behance page.
5. Open payment method: Nigerian bank + Paystack link or OPay for local clients; Payoneer if you later take Fiverr/Upwork.
6. Write a simple service list with prices and start outreach.

4. High-Demand Design Types in Nigeria

- Instagram / Facebook post packs (weekly content)
- Event & church flyers, concert posters
- Restaurant / lounge menus and price lists
- WhatsApp Status and broadcast graphics
- Simple logos and brand colour kits for small businesses
- YouTube / TikTok thumbnails
- Business cards, ID cards, certificates
- Pitch decks and proposal covers

5. How to Get First Clients

- WhatsApp Status: post your best samples daily for 7 days with a clear “DM for designs” message.
- Message 15–20 local businesses (salons, restaurants, churches, boutiques, tutors) with a short personalised offer.
- Offer a small paid test (one flyer or 3 posts) at a starter price to collect testimonials.
- Join local business WhatsApp/Telegram groups and offer value first.
- Later: Fiverr gigs for international clients (thumbnails, social posts, simple logos).

6. Sample Outreach Message

“Good day [Name], I design clean flyers and Instagram posts for businesses like yours. Here are a few samples: [link]. If you need a new flyer or a week of posts, I can deliver fast and at a fair price. Happy to do one small paid test so you can see the quality.”

7. Pricing Starter Guide

- Single social post: ■2,000–■5,000
- Flyer / poster: ■3,000–■10,000
- 7-day content pack (7 posts): ■12,000–■30,000
- Simple logo: ■8,000–■25,000
- Monthly retainer (e.g. 12–16 posts): ■40,000–■120,000+

Always state number of revisions (1–2 is normal) and delivery time.

8. Mistakes to Avoid

- Working without a clear brief (size, colours, text, deadline).
- Unlimited free revisions — this destroys your hourly rate.
- Using copyrighted images from Google without checking Canva’s free/pro licence.
- Undercharging so much that you resent the work.
- No portfolio — only talking about what you can do.

9. 30-Day Path

Days 1–7: Master Canva basics, create 10 portfolio pieces, set up payment.

Days 8–14: Daily Status + 15 outreach messages. Aim for first 2–3 paid jobs.

Days 15–30: Deliver excellently, collect testimonials, raise one price, create a simple package offer.

Month 2+: Target 2–3 monthly retainers. This is where income becomes predictable.

10. Action Checklist

- Free Canva account active
- 8–12 portfolio samples ready and shareable
- Service list + starter prices written
- Payment method ready (bank / Paystack / OPay)
- 10–15 outreach messages sent
