05 — Social Media Management

Nigeria-first practical guide · 2026

■0 · Manage pages for businesses · Retainers

How to get paid to manage Instagram, Facebook, TikTok or LinkedIn pages for Nigerian businesses: what to offer, how to price, how to find clients, and how to deliver without burning out.

1. What This Hustle Is

You take responsibility for a business's social media presence: content planning, designing or sourcing posts, writing captions, scheduling, posting, basic community replies, and simple monthly reporting. Many small businesses know they need to be active online but lack time or skill. That gap is your opportunity.

2. Realistic Earnings 2026

Level	Per client / month	Monthly potential	Notes
Starter (1–2 clients)	■25k–■60k	■40k–■120k	Basic posting
Active (3–5 clients)	■50k–■120k	■200k–■500k	Content + light engagement
Premium / agency-style	■150k–■400k+	■600k–■1.5m+	Strategy + ads + team

3. What to Offer (Clear Packages)

Starter package example:

- 12 posts per month (3 per week)
- Captions + relevant hashtags
- Basic Canva designs or client-provided photos
- Scheduling and posting
- Simple end-of-month summary

Growth package adds: more posts, Stories/Reels, community reply management, content ideas meeting.

4. Exact Setup Sequence

1. Master Canva + basic Instagram/Facebook/TikTok knowledge (free YouTube tutorials are enough).
2. Create 2–3 sample content calendars or mock pages for imaginary or real local businesses.
3. Write clear packages and prices.
4. Prepare a short portfolio (screenshots of designs + sample captions).
5. Start outreach to businesses that already post inconsistently or not at all.

5. How to Find Clients in Nigeria

- Look for businesses with good products but weak or dead social pages.
- Salons, fashion brands, restaurants, churches, schools, real-estate agents, tutors, clinics.
- Personalised WhatsApp or Instagram DM showing you noticed their page and offering a clear package.
- Ask satisfied clients for referrals — this is the fastest growth method.
- Later: small Facebook/Instagram ads targeting business owners (only after organic proof).

6. Sample Outreach Message

"Good day [Name], I noticed [Business] has great [product/service] but the Instagram page is quiet. I help businesses like yours stay consistent with clean posts and captions every week so customers keep seeing you. I have a simple monthly package starting at ■XX. Happy to show samples and discuss if you're open to it."

7. Delivery System (So You Don't Burn Out)

- Batch-create content once or twice a week instead of daily scrambling.
- Use a simple content calendar (Google Sheet or Notion).
- Get client approval on a batch before posting when possible.
- Set boundaries: reply to comments within agreed hours, not 24/7.
- Track results lightly (follower growth, engagement) so you can show value at renewal time.

8. Common Mistakes

- Accepting "post whenever you like" with no clear package or price.
- Managing too many clients before you have a system — quality drops.
- No written agreement on what is included and what costs extra.
- Focusing only on posting and ignoring whether the content actually helps the business.
- Undercharging retainers so you cannot afford to do good work.

9. 30-Day Path

Days 1–10: Learn tools, create sample calendars and designs, write packages.

Days 11–20: Outreach to 20–30 businesses. Aim for first 1–2 paying clients.

Days 21–30: Deliver excellently, document results, ask for testimonial and referral.

Month 2–3: Reach 3–4 clients. Standardise your process. Raise prices for new clients.

10. Action Checklist

- Canva + basic platform knowledge ready

- 2–3 sample content packs or calendars created
- Clear starter and growth packages with prices
- Portfolio / samples shareable
- 15–20 personalised outreach messages sent
