

07 — Online Tutoring

JAMB · WAEC · IELTS · Academic subjects · Skills · 2026

■0 capital · Phone or laptop + stable data · Local + dollar students

How to teach online from Nigeria and get paid. Covers high-demand subjects, local platforms (Tutoria, PrepClass), global platforms (Preply, Cambly, italki), pricing, student acquisition and the exact 30-day launch sequence.

1. What This Hustle Is

You teach one-on-one or small-group lessons via Zoom, Google Meet or WhatsApp. Subjects range from secondary-school exam prep (JAMB, WAEC, NECO) and primary/secondary academics to IELTS/TOEFL, university courses, coding basics, languages and practical skills. Parents and adult learners pay per hour or per package. Strong subject knowledge + clear communication matter more than formal teaching certificates for most local and many global platforms.

2. Realistic Earnings 2026 (Nigeria)

Level	Local rate	International	Monthly potential
Beginner	■2.5k–■5k / hr	\$8–\$12 / hr	■80k–■250k
Intermediate	■5k–■12k / hr	\$12–\$25 / hr	■250k–■700k
Specialist (IELTS, coding, etc.)	■10k–■25k / hr	\$20–\$40+ / hr	■500k–■1.5m+

Local platforms (Tutoria, PrepClass, Tutor.ng) pay in naira. Preply, Cambly and italki pay in dollars via Payoneer. Full-time or near-full-time tutors with 15–25 hours/week of paid lessons commonly clear ■400k–■1m+ once established.

3. High-Demand Subjects for Nigerians

- JAMB / WAEC / NECO core subjects (Maths, English, Physics, Chemistry, Biology, Economics)
- IELTS / TOEFL / PTE speaking & writing prep
- Primary & junior secondary all-subjects or maths/English focus
- University-level help (accounting, engineering basics, computer science)
- English conversation / Business English for global platforms
- Coding / digital skills (Python, web basics, Excel, Canva)

4. Exact Setup Sequence (■0)

4.1 Payment & tools

- Payoneer or Grey for international platforms
- Nigerian bank for local platforms and direct clients
- Zoom free / Google Meet + WhatsApp for delivery
- Quiet space + good lighting + headset (phone is enough to start)
- Inverter or power-bank strategy for Nigerian power reality

4.2 Build credibility in 7 days

Write a clear subject list and short bio. Record a 60–90 second intro video. Prepare 2–3 sample lesson outlines or past-question walkthroughs. Create a simple Google Doc portfolio. This is enough for platform applications and direct outreach.

5. Platform Order That Works

1. Local: Tutoria, PrepClass, Tutor.ng, SabiTeach — fastest path to first paid Nigerian students.
2. Global language: Preply (set your own rate), Cambly (easier entry, lower rate), italki.
3. Fiverr / Upwork gigs for exam-prep packages or skill tutoring.
4. Direct: WhatsApp / Instagram / Facebook groups for parents and students in your city or nationwide.

6. Sample Outreach / Profile Hook

"I help JAMB and WAEC candidates master Maths and English with clear explanations and past-question practice. Sessions are online (Zoom/WhatsApp), results-focused, and priced for Nigerian families. Free 20-minute diagnostic available. Message to book."

7. Pricing Rules

- Local academic: start ■3,000–■6,000/hr; raise after strong reviews.
- IELTS / specialist: ■8,000–■20,000/hr or package deals (10 lessons).
- Preply start \$8–\$12/hr then climb with reviews; aim \$15–\$25+.
- Offer packages (4 or 8 lessons) for better cash-flow and commitment.
- Always confirm cancellation policy and payment (50% upfront for new packages is common).

8. Common Mistakes

- No intro video or unclear subject specialisation on profiles.
- Undercharging and then burning out on low-value hours.
- Ignoring power and data reliability — have a backup plan.
- Teaching without a simple lesson structure or homework system.
- Relying on only one platform instead of mixing local + global + direct.

9. 30-Day Action Path

Days 1–7: Choose 1–2 subjects. Create bio + intro video + sample outlines. Open Payoneer. Apply to 2 local platforms + Preply.

Days 8–14: Complete profiles. Send 10 direct messages to parents/students. Post in relevant groups. Aim for first trial lesson.

Days 15–30: Deliver first paid lessons. Collect testimonials. Raise one rate. Add a second platform or package offer.

Month 2+: Target consistent 10–20 paid hours/week. Build a small waiting list. Consider group classes for higher leverage.

10. Action Checklist

- Subject(s) and target student type decided
- Intro video + bio + sample lesson material ready
- Payoneer/Grey + local bank set up
- Profiles live on at least 2 platforms
- 10+ outreach messages or group posts done
- Quiet teaching setup + power backup plan
- Simple booking and payment tracking system
